If approved the information will be called for. It would also appear necessary to have a set of rules to regulate the use of these donations. Mere purchase of library books is perhaps not intended by the donors. For orders.

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Local Self Government Department,
Bangalore.

Sir,

In forwarding herewith a copy of letter No. 158 dated 25th July 1938 received from the Superintendent, Mental Hospital, Bangalore together with an up-to-date list of books purchased for the Hospital Library out of donations received from the patients' friends and sympathisers of the Hospital, I have the honour to request that formal sanction of Government may kindly be accorded for the collections and expenditure to admit them in audit.

A list of Donors showing the amount of contributions received amounting to ₹ Rs.4675-14-6 is also enclosed.

I have the honour to be,
Sir,
Your most obedient servant,

B Narayana Rao

Senior Surgeon.

Letter No. 158 dated 25th July 1938 from the Superintendent, Mental Hospital, Bangalore to the Senior Surgeon in Mysore, Bangalore.

I have thehonour to submit that a number of patients, their relatives, and friends and sympathisers of the Mental Hospital have been generous enough to make a gift of books, as well as money for the purchase of books and periodicals - medical and general - for the Mental Hospital Library. Such donations are being received since 1935 and used for the purpose intended in strict accordance with Government rules governing the administration of such receipts. Every few months the list of books purchased and added to the Library, and a list of donors and the amount donated by them is submitted to the Senior Surgeon. The Senior Surgeon has also checked and verified the same during his annual inspection. The auditors have also checked all the accounts periodically. The list is presumably submitted for the information of the Government, and the Government have been pleased to record the same as communicated in Government order No. G.5984/5 Med. 121-35-4 Dated, Bangalore the 29th January 1936 (copy enclosed). They have been pleased to advise that more books be purchased for the use of patients, which is being followed. The patients have been very grateful for these amenities.

In this manner, we have been able to build up a very valuable reference library of medical books with special reference to mental and nervous diseases, the best of its kind in the State. In addition to the staff of the Mental Hospital this library is being increasingly made use of by many officers attached to various hospitals in Bangalore, including such distinguished medical men like the Senior Surgeon and the Residency Surgeon.

During the last audit, the auditors have suggested that in addition to the procedures being followed now, it is desirable to obta in a formal Government order sanctioning such collection and expenditure to admit them in audit. I pray that the Senior Surgeon be pleased the Government for favour of formal sanction.
